

Installing a Enterprise Financials Patch using YAB:

1. Open Browser and go to support.qad.com
2. Log in using your userid and password. Use alitersales user.
3. On the Menus in the top, Select Portal and go to QAD Store.
4. In QAD Store, in the left side menu, select Download Center
5. In the Search on Download Center, search for the Patch. You can also navigate around and find the patch
6. Once you have located the patch, click on download. This will open a box and should you a URL. Copy it. In our case we are installing Financials Patch 6
<https://fulfillment-production-eu.s3.amazonaws.com/financials-app-2022.1.6.2.zip?response-content-disposition=attachment%3B%20filename%3D%22financials-app-2022.1.6.2.zip%22&AWSAccessKeyId=AKIAI6PBBHRDIGSVWIYQ&Expires=1702810151&Signature=kmhNiGA8Ri0XG9Z%2FkTPmKtU6dP0%3D&x-qad-uid=17027669514897114396>
7. Using the above link formulate the command as below:
`wget --no-check-certificate --no-proxy 'https://fulfillment-production-eu.s3.amazonaws.com/financials-app-2022.1.6.2.zip?response-content-disposition=attachment%3B%20filename%3D%22financials-app-2022.1.6.2.zip%22&AWSAccessKeyId=AKIAI6PBBHRDIGSVWIYQ&Expires=1702810151&Signature=kmhNiGA8Ri0XG9Z%2FkTPmKtU6dP0%3D&x-qad-uid=17027669514897114396' -O financials-app-2022.1.6.2.zip`
8. Log into Linux in the Server where you want to install the patch
9. Download the Patch using below command

```
mfg@acsaasmtautoact:/media
[mfg@acsaasmtautoact media]$
[mfg@acsaasmtautoact media]$
[mfg@acsaasmtautoact media]$ wget --no-check-certificate --no-proxy 'https://fulfillment-production-eu.s3.amazonaws.com/financials-app-2022.1.6.2.zip?response-content-disposition=attachment%3B%20filename%3D%22financials-app-2022.1.6.2.zip%22&AWSAccessKeyId=AKIAI6PBBHRDIGSVWIYQ&Expires=1702810151&Signature=kmhNiGA8Ri0XG9Z%2FkTPmKtU6dP0%3D&x-qad-uid=17027669514897114396' -O financials-app-2022.1.6.2.zip
```

10. Change Directory to /apps/mfgpro and install the patch as below:

yab install /media/[financials-app-2022.1.6.2.zip](#) -install-update:false

11. Run yab update This will take about 45 mins to 1 hour to complete and should complete successful
